PROFILE

B.E. CSE (AI/ML) student at Chitkara University with skills in Python, C++, Java, Data Structures & Algorithms, AI/ML, and web development. Interested in building real-world software and AI solutions, with hands-on experience in multi-agent AI, RAG, Azure, and cloud technologies.

PROJECTS

ExamMatrix

HTML | CSS | JavaScript

Developed an exam management web application with features for viewing upcoming and previous exams, managing exam details, and visualizing hall allocations. Designed an interactive and user-friendly interface for efficient exam management.

Synapse

Microsoft Azure | Foundry | RAG | FastAPI

Built a multi-agent AI business assistant that analyzes uploaded business documents and answers business queries through specialized Analytics, Finance, Market, Customer, Risk, and Strategy agents. Integrated Azure AI Search, RAG, Blob Storage, and web search.

SmartSprint

HTML | CSS | Django | Flask

Developed a quiz-based web application where admins can create and manage quizzes, while users can participate in quizzes and view their scores. Implemented a leaderboard system to display user rankings based on quiz performance.

EDUCATION

B.E. Computer Science & Engineering — AI/ML	CGPA- 8.5
Class XII — BBMB DAV Public School 2024	82.4%
Class X — BBMB DAV Public School 2022	87.6%

SKILLS

•Python •C++ •Java •DSA •AI/ML •HTML •CSS •JavaScript
•Django •Flask •FastAPI •Azure •RAG •Git/GitHub

CERTIFICATES

- Microsoft Certified: AI-900, AZ-900, DP-900
- DSA Kickstart
- Creative Thinking Tools for Success and Leadership Specialization
- AI for Marketing Specialization

ADDITIONAL INFORMATION

Interests: •AI/ML •Software Development •Web Development •Cloud Computing
Activities: •Happiness Center •Dhwani Club •Bits 'N' Bytes •Explore Labs
Achievements: Participant — •AI Create 3.0 •Agyaat •Byte Tourney 2.0 •SynnerTech 2025
